

Polyester

Rugged strength for even the strongest winds! This 100% spun polyester flag has a 2 x 2 woven construction that is intended for use in extreme weather conditions or high wind areas. Our polyester flags feature embroidered stars and sewn stripes. If you want the same rich look as a cotton flag but need the extra strength, then this material is for you.

Note: Because polyester flags are heavier than nylon flags, they may not fly as well in light breezes. This is why we recommend polyester flags to people in extreme wind or weather conditions only.

Smaller Flag Sizes

ITEM NO.	SIZE	EACH	WT. (LBS.)

FLAG-WORKS PAYS ATTENTION TO DETAIL

HOIST OR ROPED HEADING — 8 X 12' AND LARGER

Super-strong, pure white, no-shrink, extra heavy-duty canvas with rope through canvas heading and metal thimble.

HOIST HEADING 6 X 10' AND SMALLER

Super-strong, white, no-shrink, extra heavy-duty canvas with brass grommets.

EMBROIDERED STARS

Full white embroidery...
No gaps!

APPLIQUED STARS

Opaqued white nylon with zig-zagged stitching on the edges.

LONG LIFE SEAMS

A full 1/4" turn in on all seams means a maximum use of fabric in these critical areas to substantially reduce fraying.

FLY HEM DURABILITY

Quadruple stitched and back tacked (4 rows of stitching) at the hem.

MAXIMUM RESISTANCE TO WIND

All seams double stitched with uni-directional sewing (sewn from hoist edge to fly edge only). More stitches per inch for optimum strength. Heavy-twist nylon thread is color matched to the stripes and field.
